Apart from experiencing the amazing challenge of these races, they also promote the concept of "reciprocation" to develop the resources we are using to build the sport and our life, and to support the development of the younger generation in our sport. **A portion of the entry fee will be donated to the Hong Kong Playground Association to support their school rowing program in order to nurture the next generation of our sport.**

Established in 1933, Hong Kong Playground Association (HKPA) is a long-time non-governmental organization providing social services for children and young people in Hong Kong. Through diversified and pertinent services, HKPA aims at strengthening the holistic development of the younger generation and is specifically keen on using sports and water sports as intervention tools to nurture them to be the successors of Hong Kong Society.
